Re: Textbook Adoptions for Proclamation 2017
Agenda Item: H-5

Background

The adoption of textbooks is instituted by the Texas Education Agency on a cycle for each of the content areas taught in our schools. This year the adoption cycle focused on the following areas:

- Algebraic Reasoning
- Statistics
- Career and Technology Education
- Languages Other Than English

Copies and/or online access to the proposed textbooks and supplemental materials for each of the area adoptions were made available to the Instructional Materials Committee Members who were then asked to review, share, and discuss the options with their campus instructors. Three District Instructional Materials Adoption Committees were formed. The Algebraic Reasoning and Statistics Materials Selection Committee consisted of A&M Consolidated High School, College Station High School and College View High School. The Languages Other Than English Committee consisted of representatives from A & M Consolidated High School, College Station High School, College View High School, A&M Consolidated Middle School, and College Station Middle School. The Career and Technology Instructional Materials Selection Committee was represented by AMCHS and CSHS, CVHS, AMCMS, and CSMS. The goal of these committees, in addition to making appropriate selections for their classrooms, was to attain consistency across grade levels and vertical alignment between the grade levels where feasible and appropriate.

Opportunities for public input were offered through a week long window for public viewings using online access and/or by visiting CSISD's Central Administration Building. Hours were offered on February 6-10 by appointment. Information was posted on the CSISD website and online access to the materials was available to those who may not be able to stop by and view the materials. No one made an appointment or asked for the online access to the samples to provide input.

At the final District Textbook Committee meetings, each Instructional Materials Selection Team formulated the recommendations. The instructional materials recommended by the District Instructional Materials Committees for Proclamation 2017 are attached.
