INTER-DEPARTMENTAL MEMO

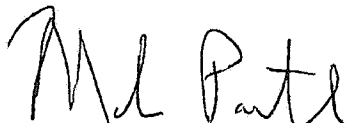

TO: Mike Martindale
DATE: April 7, 2017
SUBJECT: Chiller for A&M Consolidated High School

The Facilities Department has identified two (2) R-22 refrigerant air cooled chillers at A&M Consolidated High School that are at the end of their life expectancy and are becoming very expensive to keep working. They are proposing that one large air cooled chiller be purchased to replace these two (2) aging chillers. This purchase was specifically identified in the 2013 Bond Package deferred maintenance section.

The attached proposal from Entech Sales and Service is to remove the two (2) existing chillers and replace with one (1) Carrier Rotary Screw Chiller. Purchasing a Carrier chiller as a replacement will facilitate the removal and installation as the piping sizes and configurations are similar.

Entech Sales and Service is an approved vendor of the Texas Local Government Statewide Purchasing Cooperative. The Buy Board is the secured website for this cooperative which is administered by TASB. All items on the Buy Board have been competitively bid and awarded by the Cooperative's Board of Trustees based on state statutes.

It is the recommendation of Mark Pantel, Director of Purchasing and Jon Hall, Executive Director of Facilities to purchase the air cooled Rotary Screw Carrier Chiller installed at A&M Consolidated High School from Entech Sales and Service per contract #461-14 for \$202,532.00. The intent would be to order this chiller immediately after board approval and have it installed and operational prior to classes beginning in late August. The funds for this purchase will be provided from the 2013 Bond Package, Deferred Maintenance budget.

Mark Pantel, Director of Purchasing

Jon Hall, Executive Director of Facilities
