INTER-DEPARTMENTAL MEMO

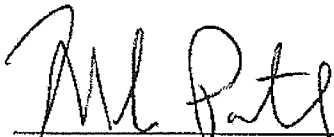

TO: Mike Martindale
DATE: May 2, 2017
SUBJECT: District Wide Storage Area Network Expansion

As part of the 2015 bond program, the Technology Department has identified a need to expand the district's Storage Area Network (SAN) to accommodate the growing file storage needs of the district. The priorities for selecting a system were increasing the amount of storage, finding a solution that easily worked with our existing systems and provided three years of support.

Three solutions were researched by the Systems Team Administrators with two manufacturers, Tintri and Hewlett Packard (HP) being selected for on-site trials. Based on the priorities given to the committee, the recommended solution was the Hewlett Packard HPE 3Par system based on flash drive storage and pricing per terabyte.

Avinext provided quote #172338 for the Hewlett Packard 3PAR system. This quote is per the State of Texas Department of Information Resources (DIR) contract DIR-TSO-3359. The DIR is an agency of the State of Texas that has established contracts with vendors for technology related products and services. DIR contracts have been competitively bid and meet the competitive bid requirements stipulated in Texas Government Code, Section 791.025.

It is the recommendation of Mark Pantel, Director of Purchasing and David Hutchison, Director of Technology that we purchase the Hewlett Packard 3PAR SAN Solution from Avinext for a total of \$295,454.80 per DIR Contract # DIR-TSO-3359 from 2015 Bond Program funds.
