

College Station Independent School District

Success...each life...each day...each hour

MEMORANDUM

To: Dr. Valerie Jochen, Board President

From: Dr. Clark Ealy, Superintendent of Schools

Date: July 14, 2017

Subject: Consider approval of Board Policy FC (Local) regarding boundary adjustment

Agenda Item: K-1

Board Priority/
District Goal: Priorities A & B; Goals 1, 2 & 3

Background

College Station ISD is a growing district that continues to add campuses to accommodate the increasing number of students moving to our community, and managing that enrollment growth continues to be an area of focus for the district. The Board of Trustees has been working on a policy since January that will guide the district by ensuring that we annually monitor and report our projected growth and that will provide a number of options available to the board and administration to respond to the increased number of students.

Policy FC (Local) is designed to (1) provide for a comparable demographic balance of students; (2) provide for the efficient use of existing facilities, including consideration for the efficient use of maintenance and operations expenditures and the efficiency of debt issuance and service; (3) allow for future growth; and (4) allow campuses to house students safely and to provide adequate services to all students.

Having a policy in place will guide trustees and administrators now and in the future as student enrollment continues to grow and decisions will need to be made to accommodate that growth. In addition, having this policy will help our current families and those moving to the community understand the district's belief system and options available to accommodate student growth including the construction of building additions and new facilities as well as boundary adjustments.
