INTER-DEPARTMENTAL MEMO

TO: Mike Martindale
DATE: May 7, 2018
SUBJECT: Bleachers and Press Box for A&M Consolidated High School
Baseball Field

The bleachers at the A&M Consolidated High School baseball field do not have appropriate ADA accommodations for ramps, handrails or stairs and need to be replaced for safety reasons. The Facilities Department has worked with Sturdisteel to provide the attached proposal to furnish and install new bleachers and press box. The existing press box will need to be removed and replaced because it connects to the bleachers.

Sturdisteel is an approved vendor of the Texas Local Government Statewide Purchasing Cooperative. The Buy Board is the secured website for this cooperative which is administered by TASB. All items on the Buy Board have been competitively bid and awarded by the Cooperative's Board of Trustees based on state statutes.

It is the recommendation of Mark Pantel, Director of Purchasing and Jon Hall, Executive Director of Facilities to accept the proposal from Sturdisteel to furnish the material, labor and equipment to install new bleachers and press box at the A&M Consolidated High School baseball field for \$184,300.00 per Buy Board Contract #512-16. The funds for this purchase will be provided from the 2017-2018 General Fund.

Mark Pantel, Director of Purchasing

Grandstands • Bleachers • Stadium Seating

Sturdisteel Notes:

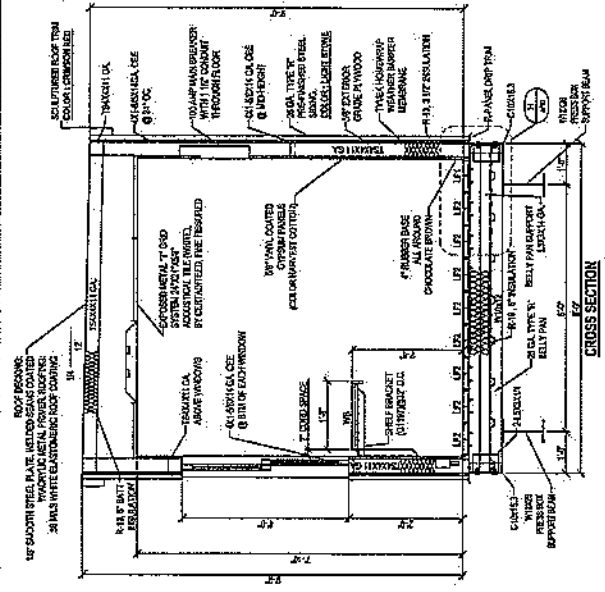

1. Exclude any site preparatory work, demo, reconditioning of site, city or state sales tax, Local or State permits, bonds or fees, any prevailing wage or union labor rates
2. **Exclude any concrete foundations for bleachers, ramp or stairs. See Alternate #2**
3. Service line electrical connection to panels in press boxes.
4. Exclude any fence work along the bottom of the stand at grade level either front, back or sides.
5. Excludes Plan approval time.
6. Excludes any item not specifically mentioned as included
7. Mill finish footboards are quoted. Mill finish footboards are the most economical option, but can be discolored or stained prior to installation. This does not damage the structural integrity of the footboards. The footboards are the walking surfaces and will have liquids spilled on them and trash and dirt will collect on them. The staining is caused by condensation or moisture during packaging, transport and or storage, and will fade over time.
8. **Project duration from notice to proceed:** 45 days for submittals, 45 days for fabrication and materials ready for delivery, 20 days for install once materials arrive on site.
9. Payment is Net 30 days from date of invoice.
10. **Buy Board Contract #512-16:**
11. This scope sheet is to be part of any purchase order or contract for this project.
