

College Station Independent School District

Success...each life...each day...each hour

MEMORANDUM

To: Mike Martindale, Superintendent

From: Amy Drozd, Chief Financial Officer

Date: December 9, 2020

Subject: Design fee for sports lighting upgrades.

Agenda Item: K – 1.

BACKGROUND

Due to the current lighting conditions at both AMCHS and CSHS stadiums, it has been recommended the stadium lights be replaced at both locations. The upgraded lighting will be Light Emitting Diode (LED) fixtures that will provide a minimum of 50 foot candles of illumination which is a significant increase from its current 26 foot. In addition to improved lighting, LED fixtures will result in significantly less electricity usage.

Savings from the 2015 bond referendum has been identified as a funding source for the project. This project requires an architectural design prior to releasing the for competitive proposal. VLK Architects was the approved architect for the 2015 bond projects and has submitted a proposal of \$72,000 for the project design.

It is estimated the project will be completed over the summer of 2021.

RECOMMENDATION

It is recommended the Board of Trustees approve the design proposal from VLK Architects in the amount of \$72,000 for the lighting project at AMCHS and CSHS stadiums utilizing 2015 Bond Funds.
