**Quarterly Investment Report for the
Quarter Ending August 31, 2020**

The quarterly investment report is presented for the quarter ending August 31, 2020, as required by Section 2256.023 of the Public Funds Investment Act and Board policy. At the beginning of the quarter, on June 1, 2020, the District had a portfolio of \$104,954,294 with a Cost to Fair Market Value ratio (FMV) of 100%. At the end of the quarter, the portfolio was \$82,987,717 with a FMV ratio of 100%.

Safety of principal is the first priority of any public investment portfolio. One way to maintain safety is to invest in high credit quality investments and to maintain diversity. College Station ISD is invested in Pools with a AAAm rating and with the option to invest in FDIC/NCUFIC insured Certificates of Deposit. The investment policy states that the district may invest in Investment Pools, Certificates of Deposit, Government Securities, and fully collateralized Repurchase Agreements. As shown by this report, the district currently complies with these requirements by having 58.46% of the district's portfolio in Investment Pools and 0% invested in Certificate of Deposits (at this time). As the market has seen a downturn in interest rates during the previous several months, the investment officers are reviewing investment options to maximize earnings while maintaining safety of principal and liquidity. The District will continue investing to meet cash flow demands.

Board policies CDA(LOCAL) are included in this report for review.

INTERNAL CONTROLS

A system of internal controls shall be established and documented in writing and must include specific procedures designating who has authority to withdraw funds.
