

MEMORANDUM

To: Tim Harkrider, Superintendent 
From: Carmella Shafer, Director of Purchasing
Date: October 12, 2026
Subject: Cell Phone Signal Enhancement – CSHS, CTE, GPES, PTIS and WMS
Agenda Item: J –3

Several district campuses experience limited or inadequate cellular service within their facilities. A signal strength assessment conducted by Wireless Services confirmed insufficient coverage in portions of College Station High School, the Career and Technical Education Center, Greens Prairie Elementary School, Pecan Trail Intermediate School, and Wellborn Middle School, particularly in lower-level areas, large gathering spaces, and administrative suites.

Based on the assessment results, district staff developed specifications and requirements to address these coverage deficiencies. Quotes were obtained from Graybar for solutions designed to improve cellular signal strength in key areas of each affected campus, enhancing communication reliability for staff, students, and visitors.

Site	Site Total	Quote #
College Station High	\$ 459,697.97	2003133206 and 2003133300
CTE Center	\$ 281,634.41	2003133204
Pecan Trail Intermediate	\$ 200,948.28	2003128327 and 2003133153
Wellborn Middle	\$ 245,142.18	2003125360 and 2003125896
Greens Prairie Elementary	\$ 309,805.78	2003319542 and 2003133160

Purchasing the cell phone signal enhancement equipment from Graybar on the provided quotes utilizing the Omnia / US Communities contract #EV2370. All items on this contract have been competitively bid and awarded based on state statutes and meet the competitive bid requirements stipulated in Texas Government Code, Section 791.025.

RECOMMENDATION

It is recommended that the Board of Trustees of College Station Independent School District approve awarding the purchase of Cell Phone signal enhancement from Graybar not to exceed \$1,550,000.00, to account for unforeseen project variables, utilizing 2023 bond funds.

David Hutchison, Director of Technology

Carmella Shafer
