

MEMORANDUM

To: Dr. Tim Harkrider 

From: Paul Buckner, Executive Director Facilities 

Date: October 13, 2026

Subject: Consider approval for Materials Testing for the new Central Office Building and renovations of the existing Central Office Building project

Agenda Item: K-1

BACKGROUND

Materials testing is required for the new Central Office Building and renovations of the existing Central Office Building project. Materials testing consists of inspections for various stages of the addition and renovation projects to ensure that the materials being used meet the specifications set forth in the project manuals as designed by the architects and engineers on the project. The main portions of materials testing are concrete and structural. Materials testing is required for permitting purposes and set forth in the project specifications. It is recommended that CME Testing and Engineering provide the materials testing services in the amount of \$162,080 utilizing 2023 bond funds.

RECOMMENDATION

It is recommended that the College Station Independent School District Board of Trustees approve the materials testing for the new Central Office Building and renovations of the existing Central Office Building project to CME Testing and Engineering, Inc in the amount of \$162,080 utilizing 2023 bond funds.
