# Performance Pathways

An Integrated Data Solution for Student Achievement

Ms. Donna Adams  
Director of Curriculum & Instruction  
College Station ISD  
1812 Welsh Avenue  
College Station, TX 77840

August 8, 2007

Dear Donna:

This letter verifies that Performance Pathways Inc., is the sole provider of the software, Performance Tracker, Assessment Builder and TechPaths Curriculum Mapping. No other company provides an interactive, web-based suite of software to track student performance, administer and automate student assessments, develop unit designs, lesson plans, assessments, point & click reporting and analysis, and having, all of the above, aligned to your state and district standards or frameworks.

While you intend to start with the curriculum mapping module, you may implement one or more of the other modules when ready.

If you require further information, please contact me via the numbers below.  
Thank you for your interest in our solutions.

Sincerely,

*Jim Bangtson 8-8-2007*

Jim Bangtson  
National Account & Implementation Director
