

# College Station Independent School District

Success....each life....each day....each hour

## MEMORANDUM

To: Dr. Eddie Coulson, Superintendent 

From: Mike Ball, Deputy Superintendent for Business and Operations

Date: November 16, 2007

Subject: Memorandum of Understanding between College Station Independent School District and The City of College Station regarding access by College Station Independent School District to the 800 MHz radio system owned by The City of College Station

Agenda Item: K-5

Board Priority/  
District Goal: B, C - 4

## BACKGROUND

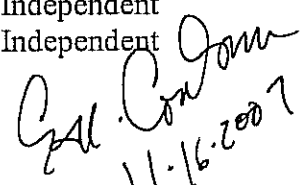

The City of College Station has allowed CSISD access to its 800 MHz radio system since 2003. That access has provided a back-up communications capability for College Station ISD personnel. Access to the 800 MHz radio system by College Station ISD personnel has also provided a benefit to The City of College Station in that their emergency first responder personnel have had the capability of communicating directly with individuals on a campus with an emergency situation.

The recommended Memorandum of Understanding is a renewal of an agreement that has been in place since 2003.

This Memorandum of Understanding appears to be a mutually beneficial arrangement for The City of College Station and College Station Independent School District.

## RECOMMENDATION

It is recommended that the Board of Trustees of College Station Independent School District consider approval of The Memorandum of Understanding between College Station Independent School District and The City of College Station providing access by College Station Independent School District to the 800 MHz radio system owned by The City of College Station.
