INTER-DEPARTMENTAL MEMO

TO: Mike Ball
DATE: October 8, 2007
SUBJECT: Data Cabling and Supplies

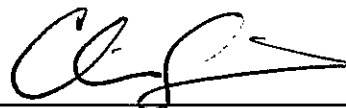

As part of the 2007 bond program, the Technology Department has requested the attached DIR quote for Panduit Data Cabling supplies from Anixter Houston.

The Department of Information Resources (DIR) is an agency of the State of Texas that has established contracts with vendors for technology related products and services. DIR contracts have been competitively bid and meet the competitive bid requirements stipulated in Texas Government Code, Section 791.025. As a public school district we are eligible to purchase from DIR contracted vendors and receive the discounts that are based on the state's anticipated volume for participating state agencies, public institutions of higher education, public school districts and other local governments.

The attached quote submitted by Anixter appears to be competitive with other DIR contracts for Panduit Data Cabling supplies. It is the recommendation of Mark Pantel, Director of Purchasing and Chris Speier, Director of Technology that we purchase the Panduit cabling supplies from Anixter for \$70,080.50 per the DIR contract # DIR-SDD-271.

Mark Pantel, Director of Purchasing

Chris Speier, Director of Technology
