

(LOCAL) Policy Comparison Packet

Each marked-up (LOCAL) policy in this collection reflects an automated comparison of the updated policy with its precursor, as found in the TASB Policy Service records.

The comparison is generated by an automated process that shows changes as follows.

- *Deletions* are shown in a red strike-through font: ~~deleted text~~.
- *Additions* are shown in a blue, bold font: **new text**.
- Blocks of text that have been *moved* without alteration are shown in green, with double underline and double strike-through formatting to distinguish the text's destination from its origin: ~~moved text~~ becomes moved text.
- *Revision bars* appear in the right margin, as above.

While the annotation software competently identifies simple changes, large or complicated changes—as in an extensive rewrite—may be more difficult to follow.

For further assistance in understanding changes, please refer to the explanatory notes in your Localized Policy Manual update packet or contact your policy consultant.

(LOCAL) Policy Comparison packet is not available because this Update/LDU contains no eligible policies. Document comparisons are run only for revisions to current (LOCAL) policies. A comparison cannot be run if the Update/LDU contains no (LOCAL) policies, if the (LOCAL) policies are being deleted, or if the (LOCAL) policies are brand new.

Special Note for Update 94

The only policy proposed for board adoption at Update 94 is FFAF(LOCAL), a brand new policy for which no comparison can be made. Copies of this policy can be found in your update packet and in the “Editable (LOCAL) Policies (Word docs/Zip)” file provided in *Local Manual Updates*.
