

College Station Independent School District

Success...each life...each day...each hour

Memorandum

Date: June 5, 2024
To: Dr. Tim Harkrider 
From: Carmella Shafer, Director of Purchasing
Subject: Purchase for two-year software license for ST Math using IMA funds, from Mind Education
Agenda Item: J - 6

Background

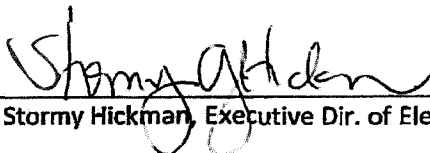

We began using ST Math at the elementary level during the summer of 2021 with positive results. ST Math is a game-based visual instructional program that leverages the brain's innate spatial-temporal reasoning ability to solve mathematical problems. The product includes more than 35,000 puzzles with interactive representations of math topics that align to state standards and learning objectives that target key grade-level concepts and skills. The program starts by teaching the foundational concepts visually and then connecting those ideas to symbols, language, and robust discourse. Along the way, animated formative feedback offers an intrinsically motivating learning experience. ST Math falls under the supplementary materials scope.

It is the recommendation of Carmella Shafer, Director of Purchasing, and Stormy Hickman, Executive Director of Elementary Education to approve the two-year agreement for ST Math site subscription and Assessment Support Tool beginning with 2024-25, in the amount of \$85,000.00 to be paid annually, for a 2-year total of \$170,000.00.

These online resources are available from MIND Education through Region 19 Allied States Purchasing Cooperative contract number 23-7458. All items on this contract have been competitively bid and awarded by the Cooperative's Board of Trustees based on state statutes.

Recommendation

It is recommended the College Station Independent School District Board of Trustees approve two-year agreement for ST Math site subscription and Assessment Support Tool beginning with 2024-25, in the amount of \$85,000.00 to be paid annually, for a 2-year total of \$170,000.00, using IMA funds.
